Integrated Advising and Student Supports Institute

October 2 – 5, 2017

New Orleans, Louisiana

Join peers and colleagues to learn about and develop strategies to redesign and integrate your advising and student support services by leveraging technology to transform the student experience and radically improve student success.

Registration opens in Spring 2017.

Contact jlawton@achievingthedream.org to learn more.

Advising and student support redesign, enabled by technology

for an

Integrated and personalized student experience

intentionally designed to

Keep students on the path to their educational and career goals

This hands-on working institute will prepare institutions to transform their advising and student support services to ensure they are delivered and experienced in an integrated, collaborative, personalized, and proactive way. The institute will be informed by lessons from Achieving the Dream's experience working with community colleges to increase student access and success and our innovative funded learning initiatives, particularly the Integrated Planning and Advising for Student Success (iPASS) initiative.
