

ATD ASSESSMENTS

Opportunity Assessments

Looking for opportunities and strategies for improved student and institutional success outcomes? Achieving the Dream (ATD) has a solution for you!

We offer a wide range of assessments, including

- Data and Technology Assessment
- Equity Opportunity Assessment
- Holistic Student Supports Assessment
- Student Parent Opportunity Assessment
- Teaching and Learning Opportunity Assessment

Achieving
the **Dream** 

“ATD’s facilitation of [our] community college’s data and technology assessment jump-started our campus-wide engagement through all levels of the college. It helped to identify the most significant issues and barriers that have translated into our transformational journey.”

— ATD Network College

Precise, Data-Driven

ATD offers multiple data-driven assessments that examine your college’s assets, challenges, and opportunities to enhance student outcomes. Precisely target opportunities for improvement to better inform student success strategies, build organizational capacity, or prioritize areas for growth.

Expert coaches review internal and external documents and gather input from relevant stakeholders. During a follow-up debrief, your coaches will deliver a comprehensive report detailing action-oriented recommendations that align with key findings and college priorities.

Learn how we can support your student success goals by contacting us at ATDservices@achievingthedream.org or scan this code to find out more. <https://achievingthedream.org/assessments/>
